ACUTE  
HEALTHCARE

2014 price list and  
order information

# CONDITIONS OF SALE

---

## PRICES

---

All prices include delivery charges.

### DIFFERENCE PER GRADE (DPG)

If a fabric grade is greater than Grade 22, calculate the price using DPG.

For example: An ottoman in a Grade 22 fabric costs \$479 and the fabric you want to apply is a Grade 24. You must add two DPGs/\$18 (\$9 per DPG), making the list price in Grade 24 fabric \$497. DPG rates and exchanges vary depending on the furniture item.

## CREDIT REQUIREMENTS

---

### NEW ACCOUNTS

A complete credit application (PLEASE SEE PAGES 9 & 10), including a financial statement and trade references, along with a 50-percent minimum deposit, must accompany your first order. If you choose not to meet our credit requirements, we will require the invoice balance before delivery. A complete credit analysis of business condition will determine the amount of credit which will be extended. You will be advised upon credit review as approved or denied.

### TERMS AND CREDIT PROCEDURES

1. Net 30 days from date of invoice on all accredited accounts.
2. Fifty-percent minimum down payment on all orders that exceed the established line of credit.
3. If balance due on the order, after the down payment of 50 percent, still exceeds the credit limit, purchaser must remit the portion of the balance that exceeds the established credit limit before delivery.
4. Our internal controls place all current orders on shipping hold if your account is in a past-due status.
5. All overdue accounts will be subject to a finance charge of 2 percent per month on the unpaid balance.
6. If it has been longer than 18 months since purchaser last placed an order, a new credit application must accompany the order. A credit review will determine purchaser's current line of open credit.
7. Our credit policies must be strictly adhered to if we are to meet delivery requirements; failure to meet our credit requirements may delay the order.

## AGENT'S AUTHORITY

---

Purchaser understands and agrees that no agent, employee or representative of Flexsteel Industries, Inc. has authority to bind Flexsteel Industries, Inc. to any affirmation, agreement, representation or warranty concerning the goods, and purchaser further understands and agrees that such affirmation of fact, promise or representation made by any agent, employee or representative of Flexsteel Industries, Inc. shall not constitute a warranty or agreement unless specifically approved in writing by an authorized officer of Flexsteel Industries, Inc.

## QUOTATIONS

---

All quotations must be in writing from Flexsteel Industries, Inc. and will expire if not accepted within 60 days of issuance, unless stated otherwise on the written quotation (PLEASE SEE PAGE 11). In addition, *force majeure (extraordinary costs due to hyper-inflation)* overrides all quotations and orders in house.

## ORDERS & CHANGES

---

All orders are to be sent to:  
**FLEXSTEEL ACUTE HEALTHCARE**  
**3400 JACKSON ST**  
**DUBUQUE, IA 52002**  
**Phone: 502-426-4351**  
**Fax: 800-444-5481**

Orders are binding upon issuance of the Flexsteel Industries, Inc. acknowledgment. Order changes are subject to our ability to conform and cannot be accepted after the fabric has been cut. We reserve the right to charge for processing order changes.

## CANCELLATIONS

---

Orders may not be cancelled without written authorization from Flexsteel Industries, Inc. Where cancellations are possible, a cancellation charge may be required. Custom-order items cannot be cancelled.

## SHIPPING

---

### SHIP/DELIVERY DATES

All orders are produced and shipped in full unless quotation specifies otherwise. Partial fabric delays will result in a delay of the entire order unless a new quotation is issued for the project.

### FREIGHT CHARGES

All prices include delivery charges.

### STORAGE/CONSTRUCTION DELAY

Charges for storage will be assessed on all items not accepted by customer within one week (seven days) of scheduled delivery date at **5 percent of net invoice, per month.**

### CLAIMS

It is the purchaser's responsibility to check all items upon receipt of shipment for concealed damage and loss. All freight damage or loss claims **must be filed by consignee with the transportation company within five working days upon receipt of said shipment.** This also applies to items shipped via Flexsteel's truck. Failure to make any claim against Flexsteel or the transportation company **within 10 working days shall constitute acceptance of the merchandise** and a waiver of any defects, errors, or shortages ascertainable upon inspection.

### RETURNS

Merchandise cannot be returned without written authorization from our Customer Care Department. Unauthorized returns will not be accepted and will be returned to the customer.

FLEXSTEEL INDUSTRIES, INC. RESERVES THE RIGHT TO IMPROVE THE PRODUCT CONSTRUCTION AND SPECIFICATIONS WITHOUT PRIOR NOTICE.

# FABRIC INFORMATION

## CARDED FABRIC

Flexsteel offers customers an extensive carded program to help achieve the look and feel desired. Fabrics are offered in a variety of grades, patterns, and colors. Flexsteel also has the capability to grade in fabrics upon request. All fabrics are warranted for one year.

## CUSTOMER'S OWN MATERIALS (COM)

All COM orders must be submitted with a completed COM Form (PLEASE SEE PAGE 13). Requirements for COM yardage shown here are based on solid color, non-match, railroaded, 54"-wide goods that are free from defects. If other than 54"-wide non-match, please refer to calculating COM yardage requirements. COM fabrics may require other methods of cutting and may require more yardage than shown in this price list. If the COM Form is not properly completed, orders will not be acknowledged until all necessary information is received by our Inside Sales Department.

It is necessary that a representative sample of the COM fabric be attached to the COM Form.

## APPLICATION INSTRUCTIONS—COM FABRICS

On all COM orders, please supply the following:

1. A one-yard cut of fabric attached to the COM Form.
2. Any special instructions for tailoring fabric or which face to use on reversible fabrics. In the absence of such instructions, Flexsteel will apply fabric using our best judgment.

NOTE: The matching of plaids, stripes, and unusually designed fabrics is generally done on a front-view basis only. Please contact Flexsteel Acute Healthcare if additional pattern matching is required.

### SEND ALL COM FABRICS TO:

ATTN: COM DEPARTMENT  
FLEXSTEEL INDUSTRIES, INC.  
212 INDUSTRIAL RD  
STARKVILLE, MS 39759-3992

## ACKNOWLEDGING AND PRICING COM ORDERS

Flexsteel will apply all COM Fabrics at our Grade 4 price.

There is an additional 5-percent (net) upcharge above the COM price for combination upholstery (two or more materials) applied on the same item.

There will be an additional 10-percent (net) charge for handling and tailoring COM fabrics other than 54"-wide non-match goods.

## CALCULATING COM YARDAGE REQUIREMENTS

All COM yardages listed are based on railroaded, non-match 54"-wide fabrics. If a fabric has a repeat, see additional yardage requirements below. COM yardage for one upholstered piece must not be in short cuts of material.

Fabric Width	Non-Match	0" - 12" Repeat	13" - 20" Repeat	Over 20" Repeat
54"	0%	15%	20%	25%

Contact the Flexsteel Commercial Furniture Division for exact yardage requirements on all COM fabrics and to determine if fabrics in widths other than 54" may be used on the style.

## CALCULATING INSIDE/OUTSIDE (TWO-TONE) & SEAT AND BACK COM OPTIONS

When requesting the application of two or more fabrics, contact the Flexsteel Customer Care Department.

## SCHEDULING OF COM ORDERS

COM, whether purchased by Flexsteel or by the customer, will require a 4-week lead time, AFTER Flexsteel's receipt of the COM.

## DISCLAIMERS FOR COM FABRICS

Flexsteel cannot be responsible for defects, color variations, and other flaws. We suggest that our customers inspect fabrics before shipping them to our factory. Under no circumstances will Flexsteel assume responsibility for COM shortages. Nor will we be responsible for wearability of the COM fabric. Flexsteel also reserves the right to refuse COM orders (or process without responsibility) where fabrics are not suitable because of pattern, weight, width, stretch, lack of backing, etc. If excess COM fabric is sent, you must state on your purchase order that it should be returned if unused. Otherwise excess fabric will be held for 60 days then recycled.

Flexsteel Industries, Inc. assumes no responsibility for flame retardant features of any COM fabric. Customers are solely responsible for seeing that COM fabrics comply with all applicable codes and regulations. All COM fabrics must be backed.

## FLAME-RETARDANT TREATMENTS

Many upholstery materials stocked by Flexsteel typically meet more stringent fire codes and test methods. Current information about a specific pattern is listed on the individual fabric cards, textile binder, and textile price list.

If materials, as stocked, do not meet your specific flame-retardant requirements, please contact Flexsteel to see if further treatment is available.

Most flame-retardant treatments are salt solutions. Cleaning these fabrics with water or water-based foams will result in salt ringing. Solvent-based fabric cleaners or dry cleaning are alternate methods of cleaning. However, you are cautioned to test proposed cleaning procedures on a small portion of fabric before proceeding with the cleaning of the entire installation.

Flexsteel Industries, Inc. is using state-of-the-art, fire-retardant materials that provide a product that will comply with California Technical Bulletin 133. Each product is produced using TB 117 treated HR foam and a fire-retardant barrier material. The upcharge for TB 133 is \$25 per yard (net), based on the yardage shown in the price list. If a written certification is required, a complete burn test is needed. It will cost half of the price of the piece of furniture with exact fabric used, freight, and \$450 (half the cost of the test). Styles that have buttons, sewn pulls, or any sewn type of detail may not be able to meet California TB 133.

No order will be accepted using any fabric containing more than 10-percent olefin.

## CUT YARDAGE

### CUT YARDAGE LIST PRICES

Listed below are the per-yard prices for 54"-wide fabrics and vinyls. These coverings are shipped FOB plant or mill.

GRADE	LIST PRICE	GRADE	LIST PRICE
4	\$40.00	16	\$114.00
6	\$52.00	18	\$126.00
8	\$62.00	20	\$136.00
10	\$72.00	22	\$146.00
12	\$92.00	24	\$156.00
14	\$104.00	26	\$168.00

## CUSTOMIZATION

The customer submits product sketch and specifications. Flexsteel Design Team then converts sketches into detailed shop drawings. The customer must supply written approval prior to the start of engineering. Any change to design and/or specifications may result in project delays and a revised quote. The engineering team creates the first prototype and optimizes changes as per customer input to create a second prototype. The second prototype is reviewed and approved and then a production-ready prototype is created. Sample and/or model room reviews generally occur at the point of the first or second prototype.

## LEAD TIMES

For custom designs please allow four to six weeks upon receipt of approved shop drawings. Production lead time is four to six weeks from receipt of COM fabric and 50-percent deposit on the order. Sourced products may require extended lead times. In some cases, this can be up to 90 days. The Chinese New Year may cause product/delivery delays.

## SAMPLES

To obtain a sample in-line product please complete the Sample Request Form (PLEASE SEE PAGE 15). For custom samples please see the previous **Customization** section.

## WARRANTIES

**All warranty time periods begin from date of delivery.**

### FIVE-YEAR WARRANTY

Flexsteel warrants its Acute Healthcare products to be free from defects in materials and workmanship for five years from the date of delivery. These warranties are based on conditions of normal use. If problems occur during the stated timeline, Flexsteel will review incidences and determine whether or not a repair or replacement is qualified. Repairs and replacements will be free of charge on all qualified products. All in-line and grade-in fabrics are warranted for one year any COM fabrics are not warranted by Flexsteel Industries, Inc. Please note: This does not include transport to and from factory for warranty repair.

### LIFETIME LIMITED WARRANTY

Flexsteel warrants its DualFlex blue steel seat spring and metal frame to be free from defects in materials and workmanship for lifetime from the date of delivery. These warranties are based on conditions of normal use. If problems occur during the stated timeline, Flexsteel will review incidences and determine whether or not a repair or replacement is qualified. Repairs and replacements will be free of charge on all qualified products.

***Warranties not expressly stated herein, including without limitations any implied warranties or merchantability and fitness for purpose, are excluded and disclaimed by Flexsteel Industries, Inc.***

***Flexsteel shall not in any event be liable for the cost of any special direct, indirect, incidental or consequential damages to anyone due to the breach on any warranty aforementioned. Flexsteel's sole obligation shall be to repair or replace any product which proves defective during the warranty period.***

***The warranties do not apply to damage resulting from accident, alteration, misuse, negligence, abuse or abnormal wear.***

***Warranties not expressly stated herein, including without limitations any implied warranties or merchantability and fitness for purpose, are excluded and disclaimed by Flexsteel Industries, Inc.***

***Flexsteel will make every effort to make on-time deliveries; however, we are not responsible for loss of revenue due to late delivery.***

***Flexsteel shall not in any event be liable for the cost of any special direct, indirect, incidental or consequential damages to anyone due to the breach on any warranty hereunder. Flexsteel's sole obligation shall be to repair or replace any product, which proves defective during the warranty period.***

***Whenever a special wood finish is requested (PLEASE SEE FORMS), Flexsteel will attempt to match for color, but does not assume responsibility for color variation resulting from this finish being applied to various hardwoods.***

***The above warranties do not apply to damage resulting from accident, alteration, misuse, negligence, abuse or abnormal wear.***

## WARNINGS

Users are urged to make PERIODIC INSPECTIONS to look for damages or signs of structural fatigue incurred in daily handling, use, and abuse. Examinations must include structural joints, corner blocks, and other points of stress. If defects are found, the product should be taken out of service.

## CONSTRUCTION INFORMATION

### FRAME CONSTRUCTION

The Flexsteel frame is precision engineered, combining select kiln-dried hardwoods and laminates, using up-to-date materials and technology to create a stronger, more durable, integral frame structure that is solid, stable, and long lasting. This technology not only helps conserve precious tree resources but also uses hardwood materials that might otherwise be wasted. Standard product, unless otherwise specified, meets CAL TB117.

### SEAT CONSTRUCTION

The following types of constructions are engineered for each item and are not interchangeable.

#### *FLEXSTEEL SPRING: DUALFLEX SYSTEM*

Features a blue steel banded platform and helical coil springs to enhance seat comfort and durability.

#### *SINUOUS WIRE SPRING*

Resilient sinuous high-carbon steel wire construction provides firm comfort.

#### *WEB SEATING SUPPORT SYSTEM*

Web is especially suited for incontinence management. It is unaffected by mildew, fungus, bacteria or urine. It has excellent strength and durability and has passed the BIFMA Cycling & Drop Test. It also meets flammability standards of UFAC Class I, NFPA 260A Classes and California TB117.

#### *FLEXSTEEL DROP-IN ZIGGER UNIT*

The Flexsteel Drop-In Zigger unit features a unitized frame made of tubular steel.

### MECHANISMS/MATTRESSES

Please specify mechanism and/or mattress upgrades. Without specification, all orders will default to the entry-level version of each component.

## CUSHIONING

### SEAT CUSHIONS

Flexsteel uses the highest quality urethane foam to provide comfort as well as durability. Our Design and Engineering Team determines the standard foam to be used at the time of product development. Designers select from either a 2.5-density (HR) urethane foam or a 1.8-density (LC) luxury comfort, high-density urethane, both meeting California TB117. Optional seat cushion is the 2.75 combustion modified, high-resiliency foam (CMHR).

### LOOSE-BACK PILLOWS

A core of pure, polyurethane foam with layers of polyester fibers bonded to both sides of the core providing comfort and shape.

### FLAME-RETARDANT FOAMS AND FABRICS

For questions concerning flame-retardant foams and fabrics contact the Customer Care Department or your Flexsteel Acute Healthcare Sales Representative.

### FLAME-RETARDANT MATTRESSES

All innerspring mattresses are manufactured to meet the requirements of U.S. Flammability Specification DOC FF4-72 as revised and California Technical Bulletin 1633. The DreamFlex mattress is UL approved. If this does not meet your specific flame-retardant requirement, innerspring mattresses can be manufactured with FireGuard, a special fiberglass, fire-blocking ticking. This ticking is manufactured by Springs Industries, which certifies that it passes NFPA 701 Small Scale and MVS 302 tests. A net upcharge of \$55.00 per mattress will be applied.

### MOISTURE-RESISTANT MATTRESSES

All mattresses can be manufactured with special 8-oz. Sentinel Gray ticking and inner tufting to ensure moisture resistance. Sentinel conforms to requirements of Federal Standard 191. It is also stain and odor resistant, anti-bacterial, and anti-static. The net upcharge per sleeper sofa is \$40.00.

## GENERAL PRODUCT INFORMATION

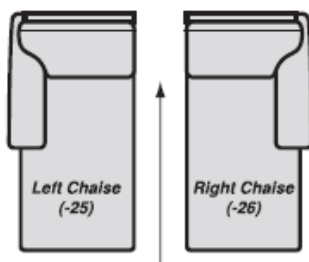

The descriptions and pictures contained in all catalogs or sales literature are based upon construction techniques in use at the time of publication. From time to time, new methods and materials become available which can improve quality and durability. **Flexsteel reserves the right to incorporate new materials or make changes in tailoring or frame without prior notice.**

All weights and sizes shown in this price list are approximate.

Special Note: Regarding recliners, if the recliner is being purchased for installation in a fire house Flexsteel will only warrant the Fire Fighter Recliners for use in this environment.

## CHAISE INFORMATION

Flexsteel determines left from right by standing at the foot end of the chaise and facing the length of the piece. This determines the standard for left (-25) and right (-26).

## ARM CAPS

### LIST PRICE

Arm caps are not standard but are available upon request on items with fully upholstered arms.

The list DPG (Difference per Grade) is \$15.00 per pair.

For example: one pair of arm caps in a Grade 6 fabric = \$50.00 + \$30.00 (2 DPG x \$15.00) = \$80.00 list price.

One pair arm caps Grade 4/COM fabric list price \$50.00.

## WOOD FINISHES

Flexsteel uses maple for exposed wood trim. Refer to the commercial wood finish samples or [www.FlexsteelAcuteHealthcare.com](http://www.FlexsteelAcuteHealthcare.com) for color representation of each finish.

### STANDARD FINISHES

Florentine – Code: 35" &"  
Formal Mahogany – Code: 35" W"  
Honey – Code: 35"2"  
Java – Code: 35">"  
Latte – Code: 35"8"-Clear  
Natural – Code: 35"=" "  
Valencia – Code: 35"<" "  
Wicker – Code: 35" \ " and 34"8"  
Wild Cherry – Code: 35" N"

**\*For best results, Natural Finish is recommended on Beech frames.**

Upon request, Flexsteel Customer Care will mail an individual wood finish sample for purchaser's reference.

## FLEXGUARD SUPER POLY FINISH

Standard on all Flexsteel products is a special finish developed for contract applications. FlexGuard is applied as a topcoat to all hospitality and healthcare exposed wood trim. It forms a tough, protective barrier, resisting stains and minor surface abrasions. It is considerably more wear resistant than regular lacquer or varnish finishes.

## CUSTOM WOOD STAIN FINISH ORDERS

For a minimum of 50 units per finish per style, Flexsteel will custom match wood finish orders. On orders of more than 50 units there will be no upcharge for custom finish. For quantities 50 or less, please contact our Flexsteel Customer Care (662) 323-5481. All custom-finish orders must be submitted with a sample of the custom finish. A simulated color panel will be returned to the purchaser for written approval. It must be returned prior to scheduling of order. Custom finishes require four weeks delivery after receipt of approved color panel.

Flexsteel will attempt to match color but does not assume responsibility for variation resulting from finish being applied on various hardwoods, because different kinds of wood and pieces of the same wood with varying grain may take the same stain differently. **This may result in a variation of the final color.**

## FABRIC CLASSIFICATION DESCRIPTIONS

Fabric classifications are restrictions of fabric usage on furniture due to design incompatibility. If the fabric you have selected does not match the fabric classifications listed for each style, a 25-percent upcharge will be added to cover additional labor.

**NM** – Non-Match fabrics. These fabrics will not be matched in any way.

**PS** – Plaid/Stripe fabrics. Matches will be frontal only. Three-cushion sofas will have matching in center of cushion; pattern will float on end cushions. Two-cushion sofas will have matching at the point where the cushions meet in the middle; pattern will float on the end cushions.

**CF** – Centered Floral/prints. Same as PS fabrics.

**SV** – Special Vinyl. Similar to UltraFabrics or Crypton.

**NV** – Normal Vinyl. Expanded vinyl products.

**DT** – Designer Textile. Includes all fabrics requiring special cutting, matching and tailoring due to fabric pattern or special repeat.

### TB133 DEFINITION:

A = Fabric has shown that when used in conjunction with a fire barrier material and proper polyfoam, it will meet the requirements of California TB133.

N = Fabric has shown that when used in conjunction with a fire barrier material and proper polyfoam, it will not meet the requirements of California TB133.

NOTE: FOR DOUBLE RUBS NOT LISTED, REFER TO FABRIC CARD

# ACT Symbols and Definitions

## Fire Retardancy

Flammability testing determines a fabric's resistance to burning.

Application	Passes
Upholstery	California 117
Direct Glue Wall Coverings	ASTM E84 (adhered method)
Panels and Upholstered Walls	ASTM E84 (adhered method)
Drapery	N.F.P.A 701 Small Scale

## Colorfastness to Wet and Dry Crocking

Colorfastness to wet and dry crocking refers to the rubbing off of color from the fabric onto clothing, hands or other materials and can occur under wet or dry conditions.

Application	Passes
Upholstery	AATCC 8-1974 Dry Crocking, Class 4 Minimum Wet Crocking Class 3 Minimum
Direct Glue Wall Coverings	AATCC 8-1974 Class 3 Minimum
Panels and Upholstered Walls	AATCC 8-1974 Class 3 Minimum
Drapery	ASTM D3691-AATCC 8-1974 (solids) ASTM D3691-AATCC 116-1974 (prints) Class 3 Minimum

## Colorfastness to Light

Colorfastness to light is the degree to which fabric will retain its color when exposed to light.

Application	Passes
Upholstery	AATCC 16A-1974 or AATCC 16E-1976, Class 4 minimum at 40 hours.
Direct Glue Wall Coverings	AATCC 16A-1974 or AATCC 16E-1976, Class 4 minimum at 40 hours.
Panels and Upholstered Walls	AATCC 16A-1974 or AATCC 16E-1976, Class 4 minimum at 40 hours.
Drapery	ASTM D3691 16A-1974 or ASTM D3691 16E-1976 Class 4 minimums at 40 hours.

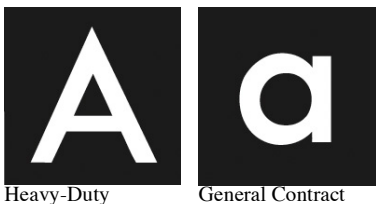

## Physical Properties

Three physical property tests include: Brush pill test to determine a fabric's pilling. Breaking/tensile strength is the ability of a fabric to withstand breaking or tearing. Seam spillage is the pulling apart of fabrics at the seams.

Application	Passes
Upholstery	Brush Pill ASTM D3511, 3-4 Minimum Breaking Strength ASTM 3579-D1682 (1975) 50 lbs. minimum in warp and weft. Seam Slippage ASTM D3579-D434-75 25lbs. minimum in warp and weft.
Direct Glue Wall Coverings	Breaking Strength ASTM 1682-64 Grab Method 50 lbs. minimum in warp and weft. Seam Slippage ASTM D3597-D434-75 25lbs. minimum in warp and weft.
Drapery	Seam Slippage ASTM D3597-D434-75 for fabrics over 6oz./sq. yard, 25lbs. minimum in warp and weft. Seam Slippage ASTM D434-75 for fabrics over 6oz./sq. yard, 15lbs. minimum in warp and weft.

## Abrasion

Heavy-Duty

General Contract

Abrasion is the ability of a fabric to withstand damage from wear and rubbing. There is a general contract specification as well as a heavy-duty specification.

Application	Passes
General Contract Upholstery	ASTM 3597 Modified (#10 cotton duck) 15,00 Double Rubs Wyzenbeek Method
Heavy-Duty Contract Upholstery	ASTM 3597 Modified (#10 cotton duck) 30,00 Double Rubs Wyzenbeek Method ASTM 4966 (with 21 oz. weight) 40,00 Rubs Martindale Method

Starkville, MS 39760-0825

Send all COM fabrics to:

Attn: COM Department

Flexsteel Industries, Inc.

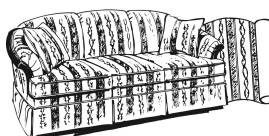

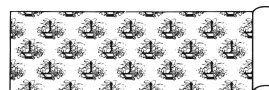

212 Industrial Road

Starkville, MS 39760-0825

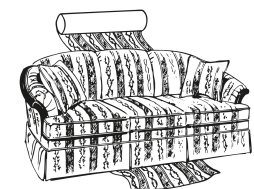

## Fabric Information

1. All fabric MUST be backed.
2. Circle the proper fabric sketch that illustrates how fabric is to be applied to furniture.

Railroad

Non-Railroad

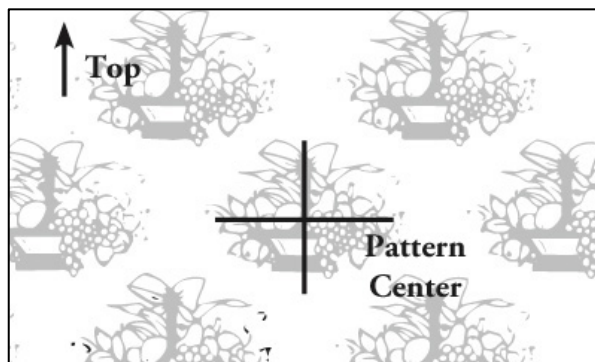

**Railroad** means the design of the pattern runs vertically from selvage to selvage. When viewing fabric from one of the selvage edges, any figures will appear upright. Stripes run perpendicular to the selvage edges.

Railroad fabrics allow tailoring of one-piece backs or seat cushions of sofas without seams.

**Non-Railroad** means the design of the pattern runs horizontally from selvage to selvage. When viewing fabric from the selvage edge, any figures will appear sideways. Non-Railroad stripes run parallel with the selvage edges.

Non-Railroad fabrics require seaming of fabric on one-piece backs and seat cushions greater than 54".

3. Enclose a swatch of fabric with this order showing the complete pattern repeat; clearly mark top and pattern center as it is to be tailored.

4. Include special instructions for tailoring below.
